

An assured and accurate solution for international payroll

Equiniti International Payments combines access to one of the world's largest global payment networks with cutting-edge bulk payments technology. Our technology solution, PayFac, allows payroll managers to securely transact payments or convert currency online in just a few clicks.

Global payment runs made easy

130 currencies

Flexible and scalable solutions

180 countries covered

Bulk payments

Competitive and transparent pricing

STRAIGHT THROUGH PROCESSING

Advanced software technology enables integration into almost any system through an API link up (true STP) or via a file upload facility, providing straight through processing for your international payments.

STATE-OF-THE-ART TECHNOLOGY

By using front end technology, we screen all information including bank account details and addresses, and specific fields required to process international payments to ensure smoother and more efficient transactions.

IMPROVE ACCURACY

By utilising our automated payment process, we can significantly reduce the need for manual intervention, which in turn helps to reduce errors.

IMPROVE COST EFFICIENCY

Reduce cost of staffing needed to make these payments, and reduce the cost of sending payments by utilising our advanced payment network through the world's largest transactional bank.

IMPROVE TIMELINESS

Streamlined processes using automated and verified technology saves time and maximises efficiency. Transfers can be transmitted through UK BACS, ACH, CHAPS, UK Faster payments, SWIFT or SEPA.

99.9% ACCURACY RATING ON PAYMENT DELIVERY

We are able to complete a full screening of all beneficiary details using state of the art technology, resulting in almost perfectly accurate payment deliveries, every time.
